Discussion about the cited prior art in the Final Rejection dated 3/2/07. Agreement was made regarding its relevance. Agreement was made regarding "recording medium identity information, a first content, and a second content" as recited in claim 1. Namely, it was agreed upon that these features needed to be further described in order to make a proper distinction between their meanings. Certain suggestions were also given to Mr. Thenor regarding how to further describe these features. These suggestions included clarifying that first content corresponds to copyrighted content while second content corresponds to bonus content.
